

HIGH PURITY LABORATORY CHEMICALS PVT. LTD.

Chemistry Beyond Chemicals

About HPLC

A complete solution for your business!

Being the most trusted brand in chemical industry's we are committed to provide stringent quality products with great customer satisfaction.

We proudly announce that our manufacturing facility is WHO-GMP and CE certified and accredited with

- ISO 9001:2015
- ISO 14001:2015
- ISO 45001:2018

Presently, we are marketing over 4,500 Products.

JOURNEY

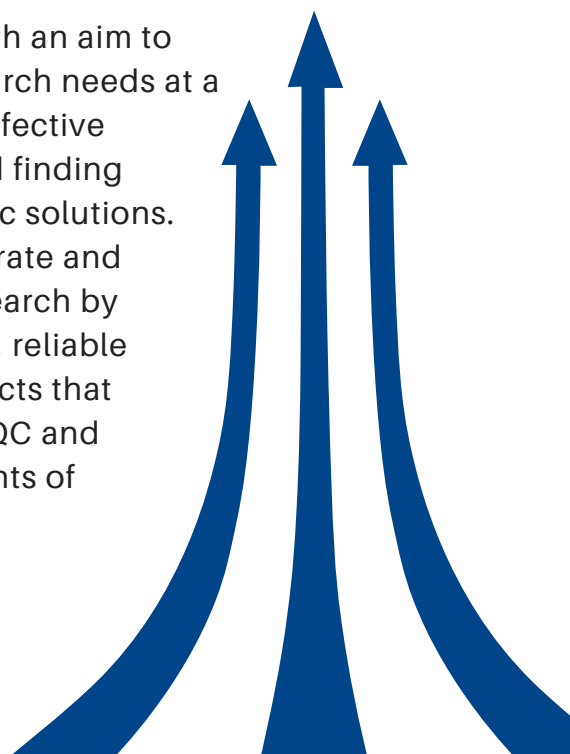

With the blessings of Late . **Shri. Jai Kishan Aggarwal** our honourable Founder who has experience of over 6 decades in chemical world and the over whelming support of our valued customers, distributors as well as stockist, HPLC has created a distinct niche for itself.

Established in 2009, High Purity Laboratory Chemicals Private Limited (HPLC), under the pioneering leadership of **Mr. S. K. Aggarwal**, an extremely visionary second generation entrepreneur having **49 Years** of experience in Lab Chemical Product Development, Marketing & Administration, HPLC has emerged as one of the leading and most-trusted brand producing and distributing high quality Organic and Inorganic Laboratory Fine Chemicals.

MISSION & VISION

HPLC was founded with an aim to meet life science research needs at a global level through effective collaborative work and finding path-breaking scientific solutions. We encourage, accelerate and promote scientific research by providing high-quality, reliable and sustainable products that are used for the R&D, QC and production requirements of several Industries & Institutions.

HPLC Manufacturing Facility

Sarigam,
Gujarat (INDIA)

GMP compliant &
State-of-the-art
PLANT

Spread over
2.5 acres
of land

Constructed area of
1,40,000 sq. ft.

Benefits **HPLC** offers to its clients

**Customer
Support**

**Timely Delivery
of Consignment**

**Economic
Pricing**

**Safe & Effective
Packaging**

**International
Standards**

**Consistent
Quality**

HPLC

**caters to the needs
of varied industries**

- **PHARMACEUTICALS**
- **PAINTS & PIGMENTS**
- **DYES & INTERMEDIATES**
- **COSMETICS & PERFUMERY**
- **DAIRY PRODUCTS**
- **MINERALS & METALS**
- **AGROCHEMICALS**
- **FOODS**
- **HOSPITALS**
- **EDUCATIONAL INSTITUTES**
- **R&D ESTABLISHMENTS**
- **TESTING LABORATORIES**
- **GOVERNMENT INSTITUTES &
UNIVERSITIES**

HPLC

Solvent Production Unit

Our manufacturing facility includes sophisticated machineries and equipment for distillation and purification of different kind of solvents. We primarily focus on procuring high grade raw materials for manufacturing in order to match up with highest global standards.

- Our existing capacity of solvents is more than 2,50,000 liters but we can increase it as per the growing demand of our pivotal clients.
- The facility is designed to utilize over 7000 Liters distillation units with the batch volumes varying from few liters to 1600 Liters.
- Our facility has a state-of-the- art distillation equipment range from 1600 Liters to 20 Liters including both SS and glass.

HPLC

Solvent Production Unit

Equipment capacity

- | | |
|---|-------|
| • S. S. Distillation unit cum reactor | 1000L |
| • S. S. Distillation unit cum reactor | 230L |
| • Glasslined reactor with Distillation unit | 600L |
| • Glasslined reactor with Distillation unit | 1600L |
| • Glasslined reactor with Distillation unit | 200L |
| • Glass Distillation cum reactor | 100L |
| • Glass Distillation unit | 50L |
| • Glass Distillation unit | 20L |

HPLC

Solid Production Unit

Our manufacturing facility consist of research engineering, product manufacturing, testing laboratory and In-house R&D department that has always enabled us to keep ahead of our competitors in the market.

We create awareness among the employees and take appropriate measures for safety of the environment and minimize potential risk and impact.

Equipment capacity

- S. S. Evaporating pan 1000L
- S. S. Evaporating pan 750L
- S. S. Jacketed crystalline pan 500L
- Glasslined jacketed evaporating pan 500L
- Glasslined jacketed evaporating pan 50L
- S. S. Evaporating pan 50L
- S. S. 316 High pressure autoclave 10L
- S. S. 316 Nutsche filter 250L
- S. S. 316 Nutsche filter 130L
- S. S. Centrifuge Basket size dia 24,18, 10
- Steam heated tray dryer 12 tray
- Steam heated tray dryer 24 tray
- Steam / Electric heated tray dryer 48 tray
- S. S. Vibrator / Shifter
- S. S. Micropulvariser

Quality Policy

At HPLC, before all other things, our customer comes first. Customer satisfaction is more than our daily mantra — it is the reason for everything we do.

Being a quality driven organization, we are committed to deliver only quality range of products to our valued clients.

We have a well-defined quality management system, where in our quality monitors keep an active check on the whole manufacturing process. It is why we combine our excellent industry expertise with a commitment to create the best and thus strive for superior economic performance through improved productivity and high quality ingredients.

Our quality control department is equipped with state-of-the-art and latest testing instruments

and many more ...

Certifications

HPLC an ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 certified company in accordance with the quality management system, a quality manual and inspection documents define the process and activities of our organization. We periodically monitor our services and performance to constantly improve and update ourselves. We are committed to manufacture products as per International Standards for total customer satisfaction, achieved by our dedicated team work.

GMP is a system for ensuring that products are consistently produced and controlled according to quality standards. It is designed to minimize the risks involved in any pharmaceutical production that cannot be eliminated through testing the final product

CE marking on a product indicates that the product complies with and has satisfied the essential requirements set out by the In Vitro Diagnostic (IVD) Medical Devices Directive 98/79/EC, it also demonstrates the fact that the product is fit for its intended purpose.

QUALITY DESIGNATIONS

Laboratory Reagents & Extra Pure (LR & EP)

These Consist of wide range of organic and inorganic reagents in preparative chemistry and other related industries. Careful control ensures that a consistently high defined quality is maintained throughout.

Analytical Reagents (AR)

These Chemicals are useful in sophisticated analytical instruments and research work, where high purity is essential. The trace impurities in these products are restricted to the lowest possible limits for the utmost precision in laboratory work.

Electronic Grade (EL)

These chemicals have very stringent limits for metallic impurities as required by the Electronic Industry.

Microbiology

Products have been specially purified and tested for their microbiological applications

Purified

Purified commercial products used in many chemical laboratories.

Biochemical

These are high purity chemicals specially manufactured and tested for Biochemical research. As required heavy metal content is carefully monitored and reduced to minimum possible levels. Our range includes amino acid and their derivatives, carbohydrates and their derivatives, enzymes, enzymes substrates etc.

Buffers

Buffers are provided in capsule form, powder form as well as solution form to work in varying pH ranges in chemicals. We also offer wide range of Biological Buffers

Diagnostic Reagents

Buffers are provided in capsule form, powder form as well as solution form to work in varying pH ranges in chemicals. We also offer wide range of Biological Buffers

Highly Process Liquid Chromatography (HPLC) & Spectroscopy Grade Solvents:

An extensive range of highly characteristic HPLC solvents are produced and tested as per the latest techniques to assure interference-free HPLC separation and detection. Key parameters such as UV absorbance, transmittance, non volatile matter, moisture content, fluorescence impurities and assay are very carefully controlled.

AAS (Atomic Absorption Standard) Solution

These standard solutions are used as reference standards for calibration of the instruments in Atomic Absorption Spectroscopic Analysis.

Indicator Powder, Buffer, Solution & Paper

Various types of indicators such as absorption indicator, metal ion indicators, redox indicators of high purity are provided as powder as well as ready to use liquid forms for analytical purpose. Paper indicators are produced using "Whatman" filter papers. pH papers cover both narrow and wide range from 1 - 14.

ICP (Inductively Coupled Plasma)

These standard solutions are used as reference standards for calibration of the instruments in Inductively Coupled Plasma Analysis.

Dried

Products containing highly reduced water content for anhydrous reactions, synthesis and assay studies.

Tech / Pract

General, Commercial grade for synthesis and routine applications.

GC

For Gas Chromatography applications and suited for use in GC instrument.

Scintillation

Ideal for scintillation studies

Disinfectants & Cleaning Solutions

Teepol, Superlab and Lysol

Nanotechnology Products

Top-quality nanomaterials for research and production purposes. Our nanomaterials find applications in a wide range of industries, including inks, paints, polymers, and more.

Gradient Grade Solvents (GG)

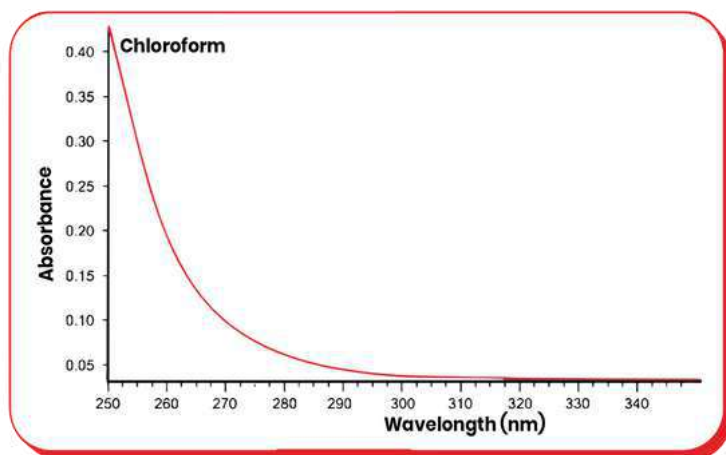

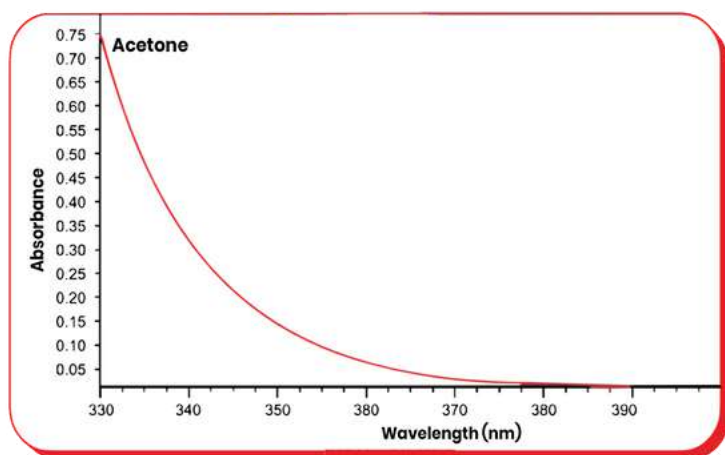

Gradient grade solvents are used in high-performance liquid chromatography (HPLC) for chromatographical separation. GG solvents are suitable for UPLC & UHPLC. This can be used in many different industries, including pharmaceuticals, analytical chemistry, and photography etc. Some applications of gradient grade solvents include:

- Enantiomeric separations & separation can cause the baseline to increase UV detection
- Alternative to reversed-phase liquid chromatography
- UV and fluorescence detection

HIGH PURITY LIQUID CHROMATOGRAPHY (HPLC Range)

Solvent are carefully analysed to limit of UV absorption. All our HPLC solvent are packed under Nitrogen for its better resistance and bottles are sealed with teflon liner to prevent contamination. Solvent particles are much smaller than conventional liquid solvents. Columns are operated at a very high pressure to maintain high quality standards.

PRODUCT PACKAGING

PKG. TYPE:-

- GB-Glass Bottle
- PB - Plastic Bottle
- PD- Plastic Drum
- AMP- Ampoules
- BP - BlackPaper
- PE - PP Bottle
- SS- Stainless Steel
- KIT- Kit
- PR- Plastic Round Cane

- Consistent in quality packing material
- Custom development of packing available - Flexibility in packaging types

PRODUCT PACKAGING

- Available in over 100 different packing options
- Custom development of packing available UN Approved packing for Air & Sea

WAREHOUSE

The consolidated manpower in our manufacturing unit is comprising of skilled and dedicated workforce, qualified & experienced chemical engineers.

We regularly keep upgrading our facility to keep abreast with latest international trend and manufacture best quality of products.

We create awareness among the employees and take appropriate measures for safety of the environment and minimize potential risk and impact.

All the products are packed with ultimate care to ensure safe delivery of goods to the desired destination under the supervision of our delivery managers.
